

The Post

T. H. HARTER, Editor & Proprietor.
Middleburgh, Jan. 25, 1883.

The year 1883 has been remarkable for the number of calamities by fire and water thus far.

It was only a brush of the blizzard's tail, but the mercury fell like a man on an unshod pavement.

Tennessee proposes to repudiate half the State debt. The private citizen that says to his creditors take 50cts on the dollar, repudiates to the same extent that Tennessee has. Polk the late Treasurer of Tennessee took five hundred thousand dollars and invested it in Mexican mines, and then fled from the State.

In 1883 there will be four eclipses, two of the sun and two of the moon. On April 22, partial eclipse of the moon, which will be visible on the Pacific coast. The next eclipse will be that of the sun on May 6; it will not be visible in this country. The third is that of the moon on October 19, and can be seen all over the United States. The last is that of the sun, and occurs on October 30, and will only be partial on the Pacific coast.

The State Senate, with one exception, unanimously confirmed the nomination of Mr. Cassidy as Governor. Mr. Pattison's Attorney General. The exception was Senator Kennedy of Philadelphia. The Senator declared the reform movement of the Democracy a farce in the light of the fact that Mr. Cassidy is the chief law officer of the Pattison administration. Mr. Pattison and Mr. Cassidy may be happy, but a large percentage of the Democracy is not happy.

The three leading States in the Union are now under the administration of tidal-wave reform Governors, and the first thing that each of these officers found out after his inauguration was that his Republican predecessor had been a mighty good Governor.—*Bartford Courier*.

A NEW AND VALUABLE BOOK.

For more than a year past the Historical Publishing Company of St. Louis, Mo., with an enterprise almost equal to Bennett's, of the New York "Herald," has had the well-known author Mr. J. W. Buel, traveling through Russia and the frozen regions of Siberia, to study and write upon the institutions of those countries. The results of the expedition have just been published in "RUSSIAN NIHILISM AND EXILE LIFE IN SIBERIA," a volume of 600 large pages and over 200 illustrations, forming one of the most thrilling and valuable records of travel and adventure the world has ever known. This work resembles accounts of the adventures and discoveries of Livingstone and Stanley in Central Africa, but it surpasses even these in many respects. Mr. Buel went to Russia under the sanction of our Government, carrying with him letters of recommendation from the State Department and influential Government officials, which secured him admission to the highest diplomatic circles Russia, and gave him access to the State records, by which means he obtained a vast amount of information never before made public. His travels and adventures in Siberia are of the most thrilling character. He thoroughly investigated Nihilism, and furnishes a complete record of the astounding deeds of that terrible secret organization which has shaken the throne of Russia to its centre.

This book is a valuable addition to American literature, and we understand that the sales are unprecedentedly large. It is the sort of book to be read around the winter fireside. It is sold only by subscription, and live agents should make haste to secure their outlets. See advertisement elsewhere in this paper.

I have tried the Capone plaster myself for pneumonia, and my patients in various diseases such as, Consumption, Malaria, Rheumatism, Lumbago, Kidney trouble, etc., and in all cases has followed in from three to forty eight hours.

Dr. Fowler rarely writes an original opinion of thousands in his profession. BENJAMIN C. POWERS' PLASTER is the best and most efficacious plaster I have ever seen. It cures the worst cases of rheumatism, consumption, &c., and is a great help to the weak.
